Takin' time to appreciate

Doin' nothin' cause it feels so great

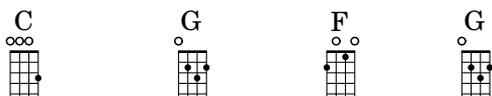

It's such a beautiful day

And we've got nothing to do

Watching clouds drift away

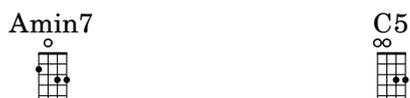

There's no-one I'd rather do nothing with than you

[Instrumental break x2]

The sun goes down    The birds fly back

The shadows fade    As the sky turns black

See the day turning into night

Sing a song as the stars shine bright

We say goodnight    to the land and sea

There's nowhere else I'd rather be

Amin9

Got a feeling I can't hide

Amin9

So happy you're by my side

It's such a beautiful day

And we've got nothing to do

Watching clouds drift away

There's no-one I'd rather do nothing with

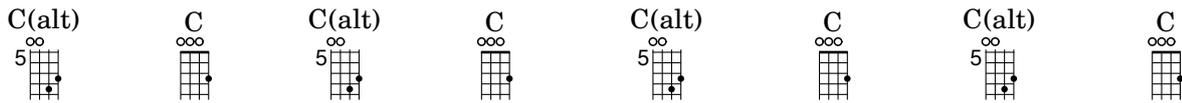

There's no-one I'd rather do nothing with

There's no-one I'd rather do nothing with than you

# Butterfly

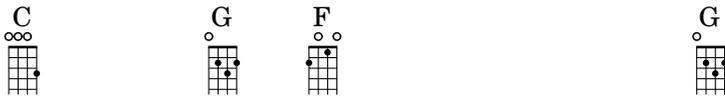

Ben Sinclair & Jeremy Dillon

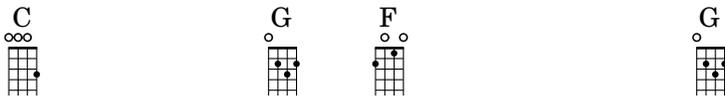

(Intro)

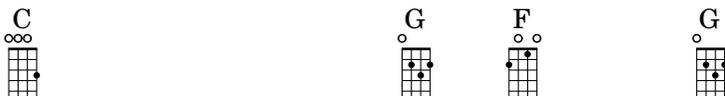

Butterfly, butterfly

Flying up into the sky

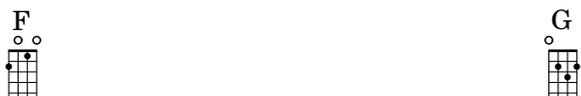

I love to see you flutter by

How'd you get, how'd you get so high?

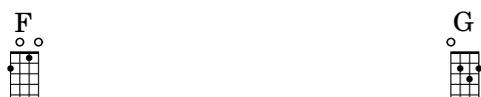

You were once a caterpillar crawlin' through the forest

Now you look more beautiful than flowers from a florist

Inside your chrysalis you grew some pretty wings

Now every time you flutter by, everybody stops and everybody sings...

Butterfly, butterfly

Flying up into the sky

I love to see you flutter by

How'd you get, how'd you get so high?

Now you look so different, it's really rather awesome this

Ability to change in fact it's called a metamorphosis

Inside your chrysalis you grew some pretty wings

Now every time you flutter by, everybody stops and everybody sings...

Butterfly, butterfly

Flying up into the sky

I love to see you flutter by

How'd you get, how'd you get so high?

Butterfly, butterfly

Flying up into the sky

I love to see you flutter by

How'd you get, how'd you get so high?

# It's a Ball

Ben Sinclair & Jeremy Dillon

[Intro x2]

It's red and round and it bounces high

BbMaj7

It hits the ground and then it hits the sky

You can throw it, and catch it, it's round and red

BbMaj7

So use your hands or just use your head

11

It's a ball, ball, ball and we'd like to announce

13

That it's fun to throw and it's fun to bounce

15

It's fun to catch and then pass it on

17

And we're going to keep playing with it all day

19

long

You can throw it with your hands and kick it with your feet

BbMaj7

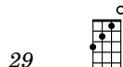

Bounce it off your head and bounce it to the beat

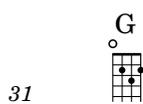

Try to catch it cause you don't want to drop it

BbMaj7

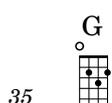

And don't use your beak cause you don't want to pop it!

It's a ball, ball, ball and we'd like to announce

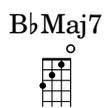

That it's fun to throw and it's fun to bounce

It's fun to catch and then pass it on

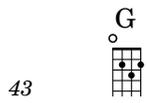

And we're going to keep playing with it all day

long (Ukulele solo)

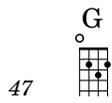

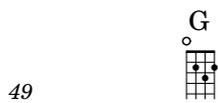

It's a ball, ball, ball and we'd like to announce

That it's fun to throw and it's fun to bounce

It's fun to catch and then pass it on

And we're going to keep playing with it all day

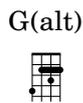

long

# Pitter Patter

Ben Sinclair & Jeremy Dillon

NB: Play the G chord with your index finger across the top 3 strings in a semi-barre

Pitter patter as the raindrops fall

Pitter patter

Pitter patter

Doesn't matter if you stop them all

Doesn't matter

Doesn't matter

Even if they all fall from the sky

Your umbrella's gonna keep you dry

Let the rain fall down                      2, 3, 4

Pitter patter as the rain comes down

Pitter patter

Pitter patter

See it splatter as it hits the ground

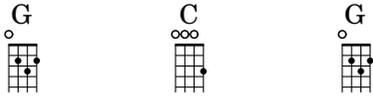

See it splatter

See it splatter

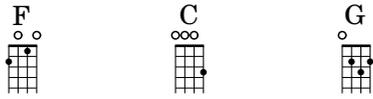

No need for you to be upset

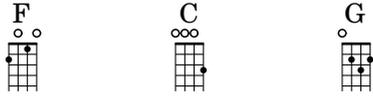

With an umbrella you won't get wet

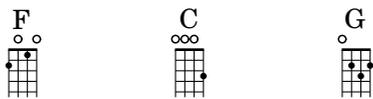

Let the rain fall down

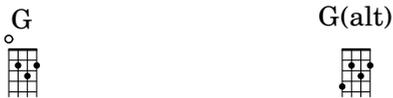

Fall down from the sky

There's no need to frown

There's no need to cry

Pitter patter as the raindrops fall

Pitter patter

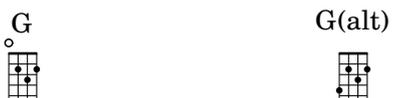

Pitter patter

Doesn't matter if you stop them all

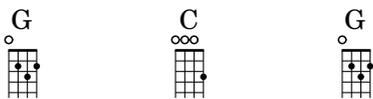

Doesn't matter, it really doesn't matter

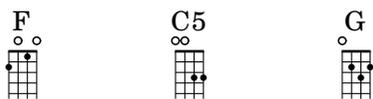

Even if they all fall from the sky

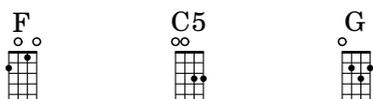

Your umbrella's gonna keep you dry

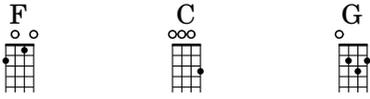

Let the rain fall down

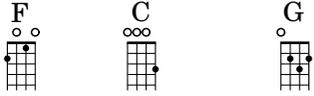

Fall down from the sky

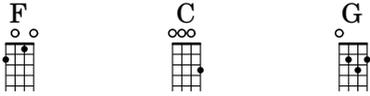

There's no need to frown

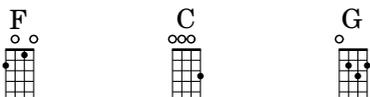

There's no need to cry

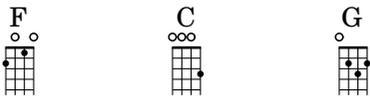

So let the rain fall down

Fall down from the sky

There's no need to frown

There's no need to cry

You can also swap the C chords in the chorus for either **C(barre)**  or **C(alt)**  chords for a bit of variation

# Rollin' On

Ben Sinclair & Jeremy Dillon

(Intro)

We've got a bright red wagon

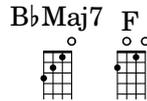

And it keeps rollin' on

Rollin'

on (on the ground) Rollin' on (all around)

And it keeps rollin' on

We've got a bright red wagon

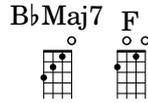

And it keeps rollin' on

Rollin'

on (down a hill) Rollin' on (such a thrill)

And it keeps rollin' on

Our wagon is fun to ride

It can carry things you put inside

It's got a handle and it's got four wheels

Our bright red wagon gives us all the feels

We've got a bright red wagon

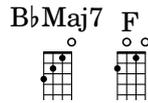

And it keeps rollin' on

Rollin'

on (goin' fast)      Rollin' on (built to last)

And it keeps rollin' on

We've got a bright red wagon

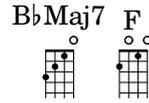

And it keeps rollin' on

Rollin'

on (get inside) Rollin' on (take a ride)

And it keeps rollin' on

Our wagon is fun to ride

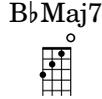

It can carry things you put inside

It's got a handle and it's got four wheels

Our bright red wagon gives us all the feels

# Baby Bird

Ben Sinclair & Jeremy Dillon

[Intro x2 bars]

Baby bird

One day you'll fly

You're still so young

Soon you'll own the sky

But there's no need

To wish time away

Or you might miss out

On a beautiful day

When you're older

You'll look back at right now

And you'll wish that

You were younger somehow

You might want what

You don't have just yet

BbMaj7

But you're already perfect please don't ever forget

Baby bird

It may seem to you

Like you can't do things

That you want to do

When you're older

You'll look back at right now

And you'll wish that

You were younger somehow

You might want what

You don't have just yet

Bb Maj7

But you're already perfect

please don't ever, ever

forget

# Horsin' Around

Ben Sinclair & Jeremy Dillon

Do you know what's up?

Yeah I know what's up

Do you know that everybody knows what's up?

Are you getting down?

Yeah I'm getting down

Do you know that everybody's getting...

Down in Coromandel

Oh what a scandal

Cuz we're runnin' wild and

Everybody's horsin' around

Take your shoes off

Then shake your blues off

Cuz we're runnin' free and

Everybody's horsin' around

Movin' towards

Land speed records

Cuz we're runnin' fast and

Everybody's horsin' around

We don't care if

You are a sheriff

Cuz we're runnin' things and

Everybody's horsin' around

Saddle up! Get on up on my back

Runnin' wild n' free we're on the right track

Giddy up! We're running like a freight train

Runnin' wild and free we're in the fast lane

(x2 - Guitar solo)

Don't be lazy

Run and go crazy

Cuz we're runnin' wild and

Everybody's horsin' around

So inspiring

And a little tiring

Cuz we're runnin' free and

Everybody's horsin' around

Feels amazing

Saddles are blazing

Cuz we're runnin' fast and

Everybody's horsin' around

Ears are flopping

But we're not stopping

Cuz we're runnin' things and

Everybody's horsin' around

Saddle up! Get on up on my back

Runnin' wild n' free we're on the right track

Giddy up! We're running like a freight train

Runnin' wild and free we're in the fast lane

Saddle up! Get on up on my back

Runnin' wild n' free we're on the right track

Giddy up! We're running like a freight train

Runnin' wild and free we're in the fast lane

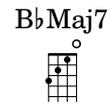

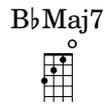

(x2 - Guitar outro)

# Goodbye

Ben Sinclair & Jeremy Dillon

[Intro]

Goodbye isn't easy to say

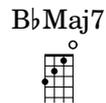

But we'll see each other again some day

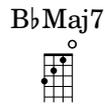

I don't know exactly how

But we'll be together, I vow

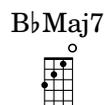

So I'll see you later, just not right now

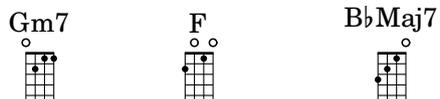

Goodbye is the hardest word

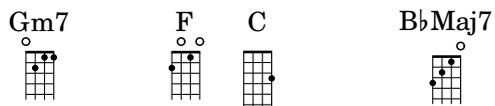

The most heartbreaking word I've heard

I don't really know what to say

But we'll be together some day

Perhaps in a very different way

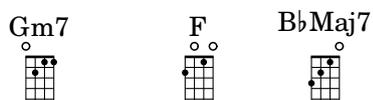

Goodbye means that we have to part

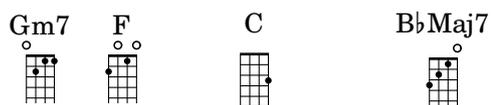

But you'll stay right here in my heart

I don't know exactly when

But we'll be together again

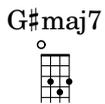

So I guess I'll see you then

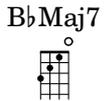

[Outro]

# Cool to be Kind

Ben Sinclair & Jeremy Dillon

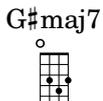

If you feel like you don't fit in

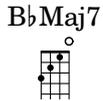

And you feel like you don't belong

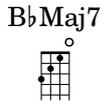

Just remember you're not alone

And you're not doing anything wrong

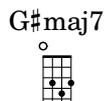

Remember to be yourself

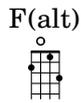

'Cause it's what sets you apart

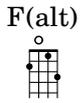

And you'll never lose your way

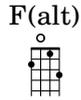

If you always follow your heart

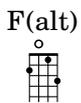

It's kinda cool to be cool but it's cooler to be kind

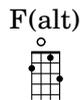

It's the coolest kind of cool we know

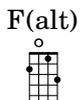

It's not cool to be a fool 'cause a fool is blind

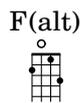

To the kindness that it's cool to show

It's not cool to be cruel 'cause cruel is unkind

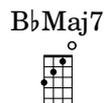

And it isn't very cool we've found

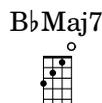

So be kind as a rule 'cause we think you'll find

It's the coolest kind of cool around

So don't care what the others say

They don't know what they're on about

What's so cool about fitting in?

It's so much cooler to stand out

It's kinda cool to be cool but it's cooler to be kind

It's the coolest kind of cool we know

It's not cool to be a fool 'cause a fool is blind

To the kindness that it's cool to show

It's not cool to be cruel 'cause cruel is unkind

And it isn't very cool we've found

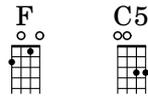

So be kind as a rule 'cause we think you'll find

It's the coolest kind of cool around

# When We Say Goodnight

Ben Sinclair & Jeremy Dillon

[Intro]

Close your eyes

Rest your head

Snuggle up

Time for bed

When we say goodnight

There's no need to be scared

When I turn out the light

I want you to be prepared

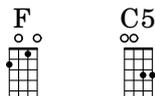

Dream of a far away place

Where everything's going right

You'll be safe and warm

When we say goodnight

[Instrumental break]

When we say goodnight

There's no need to be scared

When I turn out the light

I want you to be prepared

Dream of a far away place

Where everything's going right

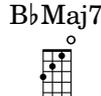

You'll be safe and warm

When we say goodnight

[Instrumental break]

We'll see each other again tomorrow

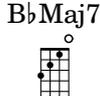

Until then enjoy the dreams that follow

Fly through the clouds up into the sky

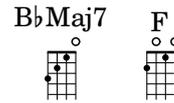

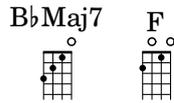

It's only goodnight, it's not goodbye

It's only goodnight, it's not goodbye

# Music

Ben Sinclair & Jeremy Dillon

[Intro]

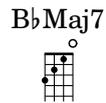

This is the sound of my voice

I sing from my heart 'cause I don't have a choice

And when I hear music around me

I feel lucky that music has found me

'Cause music is in my heart

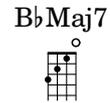

And music is in my soul

If everything falls apart

Music will make me whole

[Ukulele Solo]

Sometimes I don't know what to say

When my feelings are strong and they won't go away

But music allows me to start out

I can sing til I'm singing my heart out

'Cause music is in my heart

And music is in my soul

If everything falls apart

Music will make me whole

'Cause music is in my heart

And music is in my soul

If everything falls apart

Music will make me whole
